LIBERAL EDUCATION REQUIREMENTS

OBJECTIVES
The Liberal Education Requirements (LER) are at the core of the university’s mission to prepare students to live in today’s complex, global society. They broaden intellectual perspectives, foster ethical and humanitarian values, and prepare students for responsible citizenship and productive careers. Through this learning experience, students develop the intellectual flexibility they need to adapt to an ever-changing world. LER courses enable students to:

- Acquire critical-thinking and problem-solving skills
- Apply principles of effective written and oral communication
- Broaden their imagination and develop their creativity
- Cultivate their natural curiosity and begin a lifelong pursuit of knowledge
- Develop competencies and values vital to responsible uses of information and technology
- Engage in independent thinking, develop their own voice and vision, and become informed, responsible citizens
- Improve their understanding of issues and behaviors concerning inclusion, community, and tolerance
- Increase their awareness of ethical implications of their own and others’ actions
- Integrate their major studies into the broader context of a liberal education
- Strengthen quantitative reasoning skills
- Understand basic concepts of the academic disciplines

Although not every LER course will address all these goals, learning within the LER as a whole enables students to acquire the tools for living rich and meaningful lives in our diverse society.

GUIDELINES
1. As part of the requirements for any baccalaureate degree, all students must complete at least 36-37 semester hours of Liberal Education Requirements distributed as indicated below.
2. Colleges or degree programs may augment the university’s minimum Liberal Education Requirements, and they may specify for their students certain courses in fulfillment of the requirements. It is essential, therefore, that students consult the Catalog descriptions for their college and degree program.
3. Liberal Education Requirements should normally be completed within the 60 semester hours that immediately follow the first date of enrollment in a baccalaureate degree program.
4. Courses in the students’ major field will not count toward the completion of any Liberal Education Requirements.
5. Honors equivalents shall satisfy Liberal Education Requirements.
6. None of the courses on the Liberal Education Requirements list may be taken pass/fail.

Liberal Education Requirements Areas and Courses

I. COMPOSITION ................................................. 6
   English (ENG)
   11011 College Writing I (or 11022 College Writing II) ........ 3
   21011 College Writing II .................................... 3
   Honors (HONR)
   10197 Freshman Honors Colloquium I ....................... 4
   10297 Freshman Honors Colloquium II ....................... 4

II. MATHEMATICS AND CRITICAL REASONING ............... 3
   Computer Science (CS)
   10051 Introduction to Computer Science ................... 4
   Mathematics (MATH)
   11008 Explorations in Modern Mathematics ............... 3
   11009 Modeling Algebra .................................... 4
   11010 Algebra for Calculus ................................ 3
   11011 College Algebra ...................................... 4
   11012 Intuitive Calculus .................................... 3
   12001 Algebra and Trigonometry ............................ 4
   12002 Analytic Geometry and Calculus I ................. 5
   12011 Calculus with Precalculus I ......................... 3
   12012 Calculus with Precalculus II ......................... 3
   14001 Basic Mathematical Concepts I ..................... 4
   14002 Basic Mathematical Concepts II ..................... 4
   Philosophy (PHIL)
   21002 Introduction to Formal Logic ....................... 3

III. HUMANITIES AND FINE ARTS .............................. 9
    At least one course must be selected from the Humanities in Arts and Sciences section, and at least one course must be selected from the Fine Arts section. Diversity courses are marked “D.” An asterisk (*) indicates primarily domestic (U.S.) content.
    Humanities in Arts and Sciences
    Classics (CLAS)
    D 21404 The Greek Achievement .......................... 3
    D 21405 The Roman Achievement .......................... 3
    English (ENG)
    21054 Introduction to Shakespeare ........................ 3
    22071 Great Books I ..................................... 3

TRANSFER CREDIT, PROFICIENCY TESTING AND OTHER OPTIONS IN MEETING THE LIBERAL EDUCATION REQUIREMENTS

Certain alternatives to formal Kent State coursework may be recognized in the fulfilling of the 36-37-hour Liberal Education Requirements.

1. Credits earned for specified courses within the Liberal Education Requirements course list through external credit-conferring testing programs, such as the College Board Advanced Placement and CLEP subject examinations, will be applied toward the fulfillment of the Liberal Education Requirements as appropriate for the specific courses for which credit is received.

2. Courses transferred from accredited postsecondary institutions will be applied toward fulfillment of the Liberal Education Requirements as appropriate for the specific courses for which credit is awarded.

3. The university’s Credit-By-Examination (CBE) program may be utilized in fulfillment of Liberal Education Requirements within the conditions, guidelines and policies established for that program and for the course(s) for which credit is sought.

4. Proficiency, as established by placement examinations or other recognized procedures and mechanisms for this purpose, can be used to fulfill Categories I and II of the Liberal Education Requirements. For example, students who are placed into ENG 21011 and complete it with a passing grade will have met the Category I Liberal Education Requirements. It is assumed that students who are placed at and pass the higher level of one of these sequenced courses have also mastered the content of the prerequisite course. While students may meet the requirements of Categories I and II through proficiency, minimum hours must be met in Categories III, IV, V and VI. Students meeting Categories I and II requirements through proficiency must substitute other courses, which shall be elective, to earn a minimum of 121 hours of appropriate coursework toward a baccalaureate degree.

To fulfill the purposes of general education, any of the above alternatives to the fulfillment of the Liberal Education Requirements by 36-37 hours of formal coursework at Kent State University must be exercised by the students within the first 60 hours of academic credits earned at and/or transferred to Kent State University.

Students who transfer to the university with more than 45 semester hours of applicable credits (including students with associate’s degrees in technology from the Kent State University Regional Campuses or those who transfer to bachelor-level programs from associate-level technology programs) must exercise such option(s) within the first calendar year of their Kent State University enrollment.

**VI. ADDITIONAL COURSES**
Select additional courses from Categories II-V, above (no more than one course per category). One or both of the following courses may also be selected:

**Communication Studies (COMM)**
15000 Introduction to Human Communication (3)

**Philosophy (PHIL)**
11009 Principles of Thinking (3)

**VII. DIVERSITY**
All students must complete a two-course diversity requirement, consisting of one with a domestic focus and one with a global focus. At least one course must be taken from courses in categories III-IV that are marked “D.” An asterisk (*) indicates domestic (U.S.) focus. This course may count both toward the fulfillment of the Liberal Education Requirements and for the LER category in which it is listed, provided that the course is not in a student’s major department. A complete list of diversity courses is on Pages 89-91.

**TOTAL**
36-37
Questions concerning, and requests for application of, these alternatives to formal Kent State University coursework as a means of fulfilling the Liberal Education Requirements shall be addressed to, and will be determined by, the dean of the college or independent school in which the degree program that the students are pursuing is located.
DIVERSITY REQUIREMENT

OBJECTIVES
The purpose of Kent State’s diversity requirement is to help educate students to live in a world of diverse communities, many of which are becoming increasingly permeated with cultural and ideological differences. The study of diversity is intended to promote awareness of local and global differences, to identify shared values, to improve understanding of one’s own culture, and to encourage people to explore and respect differences.

The diversity requirement is part of the university’s broader efforts to encourage, both at the university and beyond, the development of communities in which all members and their contributions are recognized and valued. Diversity courses provide opportunities for students to learn about such matters as the history, culture, values and notable achievements of people other than those of their own national origin, ethnicity, religion, sexual orientation, age, gender, physical and mental ability, and social class. Diversity courses also provide opportunities to examine problems and issues that may arise from differences, and opportunities to learn how to deal constructively with them.

CRITERIA
Courses that satisfy the diversity requirement aim to give students significant opportunities to:

- Address diversity issues, particularly those involving unequal and/or discriminatory treatment
- Compare positive and negative implications of various parochial or “...centric” perspectives
- Encourage global awareness and sensitivity
- Engage issues of racial or ethnic perceptions, attitudes and stereotypes
- Examine patterns and trends of diversity in the United States
- Explore ways to communicate and participate constructively in a diverse community
- Foster appreciation of aesthetic dimensions of other traditions and cultures
- Learn systematic approaches to understanding cultural differences and commonalities
- Learn systematic techniques for dealing constructively with problems arising out of cultural differences
- Participate in special programs that promote understanding other peoples
- Study Western and non-Western cultures in a world context or from a comparative perspective
- Understand how one’s own culture shapes one’s perceptions, ideology and values

It is understood that not every course will address all of these criteria.

GUIDELINES
1. As part of the requirements for any baccalaureate degree, all students must satisfy the diversity requirement. Normally a student must complete two courses chosen from the diversity courses listed below.
2. At least one course must be taken as part of the Liberal Education Requirements (LER) and thus cannot be in the student’s major field.
3. Students may satisfy the second diversity requirement in one of three ways:
   a. They may complete a second diversity course from the LER list. This course may also count toward the LER but in that case cannot be in the student’s major field.
   b. They may complete any non-LER diversity course. This course may also count toward major or minor program requirements or may be used as an elective.
   c. They may, with approval from their dean, satisfy the second diversity requirement by completing one semester of study in another country.
4. Students are required to take one course addressing domestic (U.S.) issues and one course addressing global issues.

Diversity Courses
Courses with a domestic (U.S.) focus are marked on the diversity course list with an asterisk (*). Courses that also fulfill the liberal education requirement are marked with an “L”; those that also fulfill the writing-intensive requirement are marked with a “W.”

Anthropology (ANTH)
- L 18210 Introduction to Cultural Anthropology 3
- L 18420 Introduction to Archaeology 3

Writing-Intensive Course Requirement
The purpose of the writing-intensive course (WIC) requirement is to assist undergraduates in becoming effective writers within their major discipline. Building on earlier writing courses, the WIC focuses on writing forms and standards used in the professional life of the discipline. Through these courses, students should understand and experience the ways in which writing shapes and enhances the acquisition and communication of knowledge.

**CRITERIA**

All writing-intensive courses must meet the following criteria:

- Be designed, at least in part, to help students become effective writers in a specific discipline.
- Involve a substantial amount of writing.
- Provide at least one writing assignment where there is an opportunity for guided revision before grading occurs.

**GUIDELINES**

1. As part of the requirements for any baccalaureate degree, all students must satisfy the writing-intensive course requirement. At least one upper-division course from the list below must be completed with a minimum C (2.00) grade.
2. Students should fulfill the requirement by taking a course in the major. In rare instances, a student may use a writing-intensive course from another discipline if approved by the student’s major department or school.

The following are the approved writing-intensive courses.

TRANSFER MODULE REQUIREMENTS

Institutional Transfer

The Ohio Board of Regents, following the directive of the 119th Ohio General Assembly, developed the Ohio Articulation and Transfer Policy to facilitate students’ ability to transfer credits from one Ohio public college or university to another in order to avoid duplication of course requirements. A subsequent policy review and recommendations produced by the Articulation and Transfer Advisory Council in 2004, together with mandates from the 125th Ohio General Assembly in the form of Amended Substitute House Bill 95, have prompted improvements of the original policy. While all state-assisted colleges and universities are required to follow the Ohio Articulation and Transfer Policy, independent colleges and universities in Ohio may or may not participate in the transfer policy. Therefore, students interested in transferring to independent institutions are encouraged to check with the college or university of their choice regarding transfer agreements. In support of improved articulation and transfer processes, the Ohio Board of Regents will establish a transfer clearinghouse to receive, annotate, and convey transcripts among state-assisted colleges and universities. This system is designed to provide standardized information and help colleges and universities reduce undesirable variability in the transfer credit evaluation process.

Transfer Module

The new Ohio Board of Regents’ Transfer and Articulation Policy established the Transfer Module, which is a subset or entire set of a college or university’s general education curriculum in A.A., A.S. and baccalaureate degree programs. Students in applied associate degree programs may complete some individual transfer module courses within their degree program or continue beyond the degree program to complete the entire transfer module. The Transfer Module contains 54-60 quarter hours or 36-40 semester hours of course credit in English composition (minimum 5-6 quarter hours or 3 semester hours); mathematics, statistics and formal/symbolic logic (minimum of 3 quarter hours or 3 semester hours); arts/humanities (minimum 9 quarter hours or 6 semester hours); social and behavioral sciences (minimum of 9 quarter hours or 6 semester hours); and natural sciences (minimum 9 quarter hours or 6 semester hours). Oral communication and interdisciplinary areas may be included as additional options. Additional elective hours from among these areas make up the total hours for a completed Transfer Module. Courses for the Transfer Module should be completed in the first two years of a student’s course of study. Each state-assisted university, technical and community college is required to establish and maintain an approved Transfer Module.

However, subsequent policy revisions have extended this benefit to the completion of individual Transfer Module courses on a course-by-course basis.

Transfer Assurance Guides

Transfer Assurance Guides (TAGs) comprise Transfer Module courses and additional courses required for an academic major. A TAG is an advising tool to assist Ohio university and community and technical college students planning specific majors to make course selections that will ensure comparable, compatible, and equivalent learning experiences across the state’s higher-education system. A number of area-specific TAG pathways in the arts, humanities, business, communication, education, health, mathematics, science, engineering, engineering technologies, and the social sciences have been developed by faculty teams.

TAGs empower students to make informed course selection decisions and plans for their future transfer. Advisors at the institution to which a student wishes to transfer should also be consulted during the transfer process. Students may elect to complete the full TAG or any subset of course from the TAG. Because of specific major requirements, early identification of a student’s intended major is encouraged.

Conditions for Transfer Admission

1. Ohio residents with associate degrees from state-assisted institutions and a completed, approved Transfer Module shall be admitted to a state institution of higher education in Ohio, provided their cumulative grade point average is at least 2.0 for all previous college-level courses. Further, these students shall have admission priority over out-of-state associate degree graduates and transfer students.

2. When students have earned associate degrees but have not completed a Transfer Module, they will be eligible for preferential consideration for admission as transfer students if they have grade point averages of at least 2.00 for all previous college-level courses.
Transfer Module Requirements

3. In order to encourage completion of the baccalaureate degree, students who are not enrolled in an A.A. or A.S. degree program but have earned 60 semester or 90 quarter hours or more of credit toward a baccalaureate degree with a grade point average of at least 2.00 for all previous college-level courses will be eligible for preferential consideration for admission as transfer students.

4. Students who have not earned an A.A. or A.S. degree or who have not earned 60 semester hours or 90 quarter hours of credit with a grade point average of at least a 2.00 for all previous college-level courses are eligible for admission as transfer students on a competitive basis.

5. Incoming transfer students admitted to a college or university shall compete for admission to selective programs, majors and units on an equal basis with students native to the receiving institution.

Admission to a given institution, however, does not guarantee that transfer students will be automatically admitted to all majors, minors or fields of concentration at that institution. Once admitted, transfer students shall be subject to the same regulations governing applicability of Catalog requirements as native students. Furthermore, transfer students shall be accorded the same class standing and other privileges as native students on the basis of the number of credits earned. All residency requirements must be completed at the receiving institution.

Acceptance of Transfer Credit

To recognize courses appropriately and provide equity in the treatment of incoming transfer students and students native to the receiving institution, transfer credit will be accepted for all successfully completed college-level courses completed in and after fall 2005 from Ohio state-assisted institutions of higher education. Students who successfully completed A.A. or A.S. degrees prior to fall 2005 with a 2.00 or better overall grade point average would also receive credit for all college-level course they have passed. (See Ohio Articulation and Transfer Policy, Definition of Passing Grade and Appendix D.) While this reflects the baseline policy requirement, individual institutions may set equitable institutional policies that are more accepting.

Pass/fail courses, credit by examination courses, experiential learning courses and other nontraditional credit courses that meet these conditions will also be accepted and posted to the student record.

Responsibilities of Students

In order to facilitate transfer with maximum applicability of transfer credit, prospective transfer students should plan a course of study that will meet the requirements of a degree program at the receiving institution. Students should use the Transfer Module, Transfer Assurance Guides and Course Applicability System for guidance in planning the transfer process. Specifically, students should identify early in their collegiate studies and institution and major to which they desire to transfer. Furthermore, students should determine if there are language requirements or any special course requirements that can be met during the freshman or sophomore year. This will enable students to plan and pursue a course of study that will articulate with the receiving institution’s major. Students are encouraged to seek further information regarding transfer from both their advisor and the college or university which they plan to transfer.

Appeals Process

Following the evaluation of a student transcript from another institution, the receiving institution shall provide the student with a statement of transfer credit applicability. At the same time, the institution must inform the student of the institution’s appeals process. The process should be multi-level and responses should be issued within 30 days of the receipt of the appeal.

Transfer Module Areas and Courses

Additional hours must be chosen from Categories II-V above or
COMM 15000 Introduction to Human Communication (3).

TOTAL 36-37

Transfer Credit, Proficiency Testing and Other Options in Meeting
the Transfer Module

Certain alternatives to formal Kent State coursework may be
recognized in the fulfilling of the 36-37-hour Transfer Module
requirements.

1. Credits earned for specified courses within the Transfer Mod-
ule course list through external credit conferring testing pro-
grams, such as the CEEB Advanced Placement and CLEP
subject examinations, will be applied toward the fulfillment of
the Transfer Module requirements as appropriate for the spe-
cific courses for which credit is received.

2. Courses transferred from accredited postsecondary institu-
tions will be applied toward fulfillment of the Transfer Module
requirements as appropriate for the specific courses for which
credit is awarded.

3. The university’s Credit-By-Examination (CBE) program may be
utilized in fulfillment of Transfer Module requirements within
the conditions, guidelines and policies established for that
program and for the course(s) for which credit is sought.

4. Proficiency, as established by placement examinations or
other recognized procedures and mechanisms for this pur-
pose, can be used to fulfill Category I and II of the Transfer
Module requirements. For example, students who are placed
into ENG 10002 and complete it with a passing grade will have
met the Category I Transfer Module requirement. It is assumed
that students who are placed at and pass the higher level of one
of these sequenced courses have also mastered the content of
the prerequisite course. While students may meet the require-
ments of Category I and II through proficiency, minimum hours
must be met in Categories III, IV and V. Students meeting Cate-
gory I and II requirements through proficiency must substitute
other courses, which shall be elective, to earn a minimum of
121 hours of appropriate coursework toward a baccalaureate
degree.

To fulfill the purposes of general education, any of the above alter-
atives to the fulfillment of the Transfer Module requirements by
36-37 hours of formal coursework at Kent State University must be
exercised by the students within the first 60 hours of academic
credits earned at and/or transferred to Kent State University.

Students who transfer to the university with more than 45 semester
hours of applicable credits (including students with associate’s
degrees in technology from the Kent State University Regional Cam-
puses or those who transfer to bachelor-level programs from associ-
ate-level technology programs) must exercise such option(s) within
the first calendar year of their Kent State University enrollment.

Questions concerning, and requests for application of, these
alternatives to formal Kent State University coursework as a means
of fulfilling the Transfer Module requirements shall be addressed to,
and will be determined by, the dean of the college or independent
school in which the degree program that the students are pursuing
is located.
