THE REGIONAL CAMPUSES
Advising Offices are Located at the Individual Campuses.

See the next two pages for the campus nearest you.
http://www.kent.edu/regional/
THE REGIONAL CAMPUS NETWORK

The Regional Campuses are a network of seven distinct campuses within the university. Three of them, the Ashtabula, East Liverpool and Salem campuses, are named for the cities in which they are located. The remaining four—Geauga, Stark, Trumbull and Tuscarawas campuses—are named for their counties and are located near the cities of Burton, Canton, Warren and New Philadelphia, respectively.

All of the Regional Campuses are accredited by the The Higher Learning Commission and are members of the North Central Association. Some associate degree programs also have earned specific accreditation. The accounting technology, business management technology, computer technology and information technology for administrative professionals programs are accredited by the Association of Collegiate Business Schools and Programs (ACBSP). The nursing program is accredited by the National League for Nursing Accrediting Commission (NLNAC) and the electrical/electronics and the mechanical engineering technology programs at the Tuscarawas Campus are accredited by the Technology Accreditation Commission of the Accreditation Board of Engineering and Technology (TAC/ABET). The radiologic technology program at the Salem Campus is accredited by the Joint Review Committee on Education in Radiologic Technology (JACERT). The American Physical Therapy Association has accredited the Ashtabula and East Liverpool programs. Ashtabula and East Liverpool’s occupational therapy assistant program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE).

MISSION

The mission of the Regional Campuses System is to make the resources of the 27th largest university in the country accessible to the citizens of Northeast Ohio. The regional campuses are also charged with the task of delivering a wide variety of area-specific technical education and training to the communities they serve. Finally, delivering programs and services that enhance business and employment opportunities in a time of economic transition is an integral part of the mission of the Regional Campus System. The regional campuses carry out this mission through the efforts of a faculty committed to the highest standards in the scholarships of discovery, integration, application, teaching and university citizenship. Faculty members actively pursue a variety of create endeavors, regularly contribute to the scholarship in their disciplines, take pride in their continuing pedagogical successes, and are recognized by the wider University community with teaching and professional development awards. Regional campus faculty are visible citizens in the communities they serve, as well as at every level of university governance.

Regional campuses have an open enrollment policy and an expanding postsecondary enrollment option program. Many are “nontraditional” students: people returning to the classroom after having begun or raised a family; manufacturing and business workers in need of retraining in the face of economic change; bright, motivated young students earning college credit while still in high school; and for the “traditional” student, the regional campuses offer the first and second years of coursework leading to the bachelor’s degree in 170 major fields.

Each of the regional campuses—Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas—is an integral part of the community it serves, whether through the promotion of fine arts and humanities, the extensive offering of continuing education courses and programs, the enhancement of primary and secondary education, the development of carefully crafted associate degree programs, the offering of selected upper-division and graduate coursework, a wide variety of partnerships with business and industry, the leadership in the development of distance learning technology, or as a first step—close to home—toward the goal of a four-year baccalaureate degree at Kent State University. The Regional Campus System is itself an integral part of Kent State University, advancing the mission of the University by delivering its programs and services throughout Northeast Ohio.

THE CAMPUSES

The Ashtabula Campus
3300 Lake Rd. West, Ashtabula, OH 44004, phone: 440-964-3322, fax: 440-964-4269, Web: www.ashtabula.kent.edu. The Ashtabula Campus is situated on an 80-acre site on Route 531 that overlooks Lake Erie. The three buildings on site house classrooms, administrative offices, child-care facilities, engineering and computer/science labs, athletic facilities, an auditorium, a gymnasium and a library. The grounds promote recreation and study and feature tennis courts, baseball fields, picnic areas and an outdoor performing arts stage. Sixteen associate degrees and all coursework for eight baccalaureate degrees are available at Kent State Ashtabula.

The East Liverpool Campus
400 E. 4th Street, East Liverpool, OH 43920, www.eliv.kent.edu, 330-382-7400 (phone), 330-382-7562 (fax). Kent State East Liverpool is an urban campus that overlooks the Ohio River. The campus serves students from Columbiana, Carroll, Jefferson and Mahoning counties in Ohio, and from the neighboring states of West Virginia and Pennsylvania. The East Liverpool Campus offers associate degrees in arts and sciences, accounting technology, business management technology, computer technology, justice studies, legal assisting technology, nursing, occupational therapy assistant and physical therapist assistant. Students interested in baccalaureate degrees can complete coursework in business management, technology, justice studies and general studies. Students can complete nearly all the coursework for the psychology and inte-
Regional Campuses

Regional Campuses offer baccalaureate degrees in business, education, horticulture, human services, radiologic technology and computer technologies. Students also can complete associate coursework, the Tuscarawas Campus offers 17 associate degrees, as well as all of the coursework for the following bachelor’s degrees: business management, general studies, industrial technology, justice studies, nursing and technology 2+2. In addition to the undergraduate coursework, the Tuscarawas Campus offers all the coursework for the master’s degree in technology. The campus’ Science and Advanced Technology Center provides over 50,000 square feet of laboratory and classroom space for nursing, continuing studies and workforce development.

ADMISSION

Students interested in attending a Regional Campus may obtain admission forms from any of the campuses. Admission is open to anyone with a high school diploma or its equivalent. Part-time early admission opportunities are available for qualified high school students in consultation with an advisor. In programs with special admission requirements, admission decisions and judgments will be made by the director of the program following normal faculty consultative procedures, and will take into account factors such as life experience, level of motivation and concern for under-represented groups in the program, as well as indicators such as GPA or ACT score.

Each Regional Campus has staff members available to discuss admissions, financial aid opportunities and programs with prospective students.
Regional Campuses

Registration dates, times, procedures and access methods are similar to those of the Kent Campus. Registration information at a particular campus can be obtained from that campus.

Because the seven Regional Campuses and the Kent Campus comprise one university system, access and mobility among the campuses is encouraged and facilitated. Even so, there are some differences between the Kent Campus and the Regional Campuses in freshman and transfer admission requirements.

KENT CAMPUS REFERRALS
Freshman admission eligibility at the Kent Campus is based upon an applicant’s cumulative high school GPA and, in some cases, standardized test scores and the college preparatory curriculum. Students not meeting the freshman admission criteria for the Kent Campus who wish to enter the Kent State University system must enroll for at least one semester at a Regional Campus. Enrollment at the Regional Campuses permits students to take advantage of smaller class sizes, more individualized advising services and a wider range of developmental programs.

For the deferred freshman or transfer student who enrolls at a Regional Campus to obtain the best possible foundation for academic success, it is recommended that the student complete the following minimum academic achievements before enrolling at the Kent Campus:

1. Successfully complete any developmental coursework as prescribed by an academic advisor.
2. Successfully complete 12 semester hours of coursework.
3. Achieve a minimum cumulative GPA of 2.00.

Students are strongly encouraged to work closely with their academic advisor in planning for the transition to the Kent Campus.

STUDENT SERVICES AND FINANCIAL AID
Each Regional Campus provides a number of student services. One of the most important services is providing information about financial aid and scholarships. For students who qualify, a number of financial aid opportunities are available, including the Federal Perkins Loan, the Ohio Instructional Grant Program, the Federal Pell Grant Program and other special aid programs. Financial help may also be available through the Federal College Work-Study Program or through other part-time job opportunities. Local employers often seek part-time help through Regional Campus offices.

While each campus has scholarship funds available, the amount and number of scholarships and the requirements for them vary considerably. All of the campuses have funds available for short-term loans. Because of the variety in number and character of these programs, it is suggested that interested students contact the financial aid advisor of the campus they wish to attend.

Other student services at the Regional Campuses include preadmission counseling, academic advising, child care and career counseling.

ACADEMIC SUPPORT SERVICES
An important feature of the Regional Campuses is a commitment to help students become successful. Many students enter directly from high school, while others combine full-time jobs and families with classwork. Success in college depends largely upon skills in reading, studying, mathematics and composition.

Basic Skills Assessment: Free testing is required of all students to assess learning skills. This information is used by students and advisors to determine the best course placement for academic success. If testing shows the need for additional preparation in reading, studying, mathematics or composition, support courses are available to meet these needs and will be required.

Academic Support Courses:
ENG 11001 Introduction to College Writing-Stretch and ENG 11002 College Writing I-Stretch, 3 credit hours each. These courses introduce college-level literacy with emphasis on reading and writing college-level texts.

MATH 10031 Fundamentals of Mathematics I. The topics included in this course included operations on integers, fractions, decimals and percents, properties of real numbers. Students who have not taken a previous mathematics course at Kent State must see an academic advisor in the Student Advising Center for placement.

MATH 10032 Fundamentals of Mathematics II. The topics included in this courses are equations and inequalities in one variable, linear equations, rate of change and slope, graphing in the Cartesian coordinate system and introduction to function. Students who have not taken a previous mathematics course at Kent State must see an academic advisor in the Student Advising Center for placement.

MATH 10033 Fundamentals of Mathematics III. The topics included in this course are systems of equations, algebraic expressions, exponents and radical expressions, functions and their graphs. Students who have not taken a previous mathematics course at Kent State must see an academic advisor in the Student Advising Center for placement.

MATH 10034 Fundamentals of Mathematics IV. The topics included in this course are polynomial operations and factoring, quadratic equations and functions, zeros of functions, rational expressions.
Regional Campuses

and functions. Students who have not taken a previous mathematics course at Kent State must see an academic advisor in the Student Advising Center for placement.

MATH 10035 Fundamentals of Mathematics V. The topics included in this course are polynomial functions, medium-level factoring techniques; solving equations and inequalities; problem solving. Students who have not taken a previous mathematics course at Kent State must see an academic advisor in the Student Advising Center for placement.

MATH 10036 Fundamentals of Mathematics VI. The topics included in this course are advanced factoring techniques; basics of exponential and logarithmic functions. Students who have not taken a previous mathematics course at Kent State must see an academic advisor in the Student Advising Center for placement.

US 10003 Reading Strategies for College Success, 3 credit hours. Emphasis in this course is placed on improving reading comprehension. Prerequisite: assessment testing or permission.

US 10006 Study Strategies for College Success, 3 credit hours. This course assists students in developing the reading skills necessary for successful completion of college coursework. Prerequisite: assessment testing or permission.

College credit is awarded for these courses; however, their application toward meeting degree requirements varies by program.

Support Services
These services include peer tutors, who are available for certain courses, and special assistance in writing, reading and mathematics. Also available are skill development centers, learning centers and workshops in writing.

First Year Experience FLASH Point
US 10097 First Year Experience FLASH Point is required of all freshmen and transfer students entering the university with 24 or fewer semester hours. It is designed to help make the transition to college; to familiarize individuals with campus life, services and expectations; and to suggest techniques that can improve student success.

Advising
Regional Campuses consider advising to be an essential component in student success. Professional staff provide general advising, while faculty have primary responsibility for major advising.

Cost
Because the university is state-supported, fees are adjusted to provide quality education at the lowest possible cost. One important advantage to students attending a Regional Campus is that they can live at home, thus saving room and board expenses.

STUDENT DISABILITY SERVICES
The Regional Campuses of Kent State University are committed to providing equal access to students with disabilities. Each campus has a student disability coordinator who works with students to identify appropriate academic accommodations and support services to foster success at the university. Services for students with disabilities are determined by appropriate educational, medical and/or psychological documentation provided by the student. After documentation is reviewed and the disability is verified, students receive a letter of accommodations to present to instructors, and instructors then will know how best to work with students to meet their individual needs. If students are requesting accommodations, it is suggested that they contact the student disability coordinator on the campus they plan to attend at least two months prior to enrollment so that accommodations can be in place at the beginning of the semester. Contact the student disability coordinator for more information.

THE ASSOCIATE DEGREE
Associate degrees are awarded for the successful completion of 61 or more semester hours of coursework. They are designed to fulfill two major purposes: to permit students to complete the freshman and sophomore years of a baccalaureate program; or to prepare them for immediate employment in a technology field.

While associate degrees are awarded after the successful completion of at least 61 semester hours, it should be noted that most programs actually require additional hours to complete. Students who are studying part time should expect to take more than two years to complete their programs.

Baccalaureate Study on Regional Campuses
Each Regional Campus offers programs designed to complete the freshman and sophomore years of most of the baccalaureate degrees offered by the university. The intention of such programs is to provide students interested in eventually obtaining a four-year degree the opportunity of remaining at home while beginning their degree. It is expected that such students eventually will transition to the Kent Campus or transfer to another baccalaureate degree-granting institution to complete the degree. Some baccalaureate degrees may be completed at each Regional Campus.
Completion of the freshman and sophomore years of a baccalaureate degree program leads to the award of the Associate of Arts or Associate of Science degrees.

**Associate of Arts**
This degree is awarded to students who successfully complete a minimum of 61 semester hours toward the Bachelor of Arts, the Bachelor of Fine Arts, the Bachelor of Business Administration, the Bachelor of General Studies or the Bachelor of Music degrees.

**Associate of Science**
This degree is awarded to students who successfully complete a minimum of 61 semester hours toward a Bachelor of Science degree.

**Baccalaureate Degree Completion Programs**
Several baccalaureate degree programs at Kent State University often can be completed with approximately two years of additional full-time study after completion of an associate degree. Some course selections leading to associate degrees are more applicable than others as components of baccalaureate degrees, and exact requirements for additional study vary. Students interested in baccalaureate degree completion programs should see an advisor at the earliest possible date.

**Liberal Education Requirements**
Candidates for the Associate of Arts and the Associate of Science degrees must fulfill the 36-hour Liberal Education Requirements. Regional Campus students who intend to earn a bachelor’s degree at Kent also will be expected to fulfill these requirements. (See Pages 85-87 of this Catalog for specific information about the LER.)

Students in Associate of Applied Science and Associate of Applied Business degree programs are expected to choose their general studies courses from the Liberal Education Requirements list. All exceptions must be approved by the students’ academic advisor. The availability of specific LER courses varies by campus.

**Technical Programs**
The purpose of associate degree programs in technical areas is to prepare graduates for immediate employment. To accomplish this, the following associate degrees are offered:

**Associate of Applied Business**
This degree is awarded to students who successfully complete prescribed coursework in any of the following business technology programs: accounting technology, business management technology, computer technology or information technology for administrative professionals.

**Associate of Applied Science**
This degree is awarded to students who successfully complete prescribed coursework in any of the following environmental, health or engineering technologies: aviation maintenance technology, computer design and animation technology, early childhood education technology, electrical/electronic engineering technology, engineering of information technology, environmental technology, high technology manufacturing, horticulture technology, human services technology, legal assisting technology, manufacturing engineering technology, mechanical (integrated manufacturing) engineering technology, nursing, occupational therapy assistant technology, physical therapist assistant technology, plastics technology, radiologic technology, respiratory therapy technology, systems (industrial) engineering technology or veterinary technology.

**Associate of Technical Study**
Degree-Category A: This degree requires a minimum of 65 credit hours selected in consultation with an academic advisor from existing courses at that campus. The program permits students to develop a curriculum based on specific career objectives that are not served by existing degree programs.

Degree-Category B: This degree provides associate degree-level completion based on a technical certificate or other formal technical training program acquired outside Kent State University.

**Options in Technical Programs**
Some business and engineering technology programs have different options from which students can choose. While options provide students with opportunities for focused study, not all options possible within a program are offered at all campuses. Students should check with an advisor to see what program options are available at the campus they are attending.

**Certificate Programs**
The Regional Campus system awards approved certificates to students who successfully complete a course of study designed to meet a specific need. These programs consist of a minimum of 15 credit hours and a maximum of 30. Some certificate programs articulate fully or in part with associate degree majors.

Students wishing to participate in certificate programs must meet the standards set forth in the university admissions policy, except where a program has been designed for a group with unique needs, such as a contract training group.

Students already enrolled at Kent State must declare their intent to pursue a certificate before completing 50 percent of the courses required. Courses completed pass/fail or through Credit-By-Exam...
will not count toward completion of the certificate requirements. If a student already has completed a program requirement by pass/fail or Credit-By-Exam, an alternative requirement will be designated.

To successfully earn a certificate, students must achieve a minimum 2.50 cumulative GPA in the courses required for the following programs: computer forensics and information security, database administrator, legal nurse consulting/nurse paralegal, solutions developer and systems engineer. All other certificates require a minimum cumulative GPA of 2.00 in the courses required for the programs.

Opportunities for Study Beyond the Associate’s Degree

Associate of Arts and Associate of Science degree programs can become the foundation for baccalaureate programs.

Many credits earned in a technical associate degree program are also applicable to baccalaureate degrees both at Kent State and at other colleges and universities. Which credits apply depend upon the associate degree earned and the baccalaureate degree toward which students wish to work. Working closely with an advisor is strongly suggested as students explore options for majors and plan their schedules.

The baccalaureate completion program permits students who hold an associate degree in an appropriate field to complete the Bachelor of Science in approximately two years of additional study. For additional information, please consult Page 394 of this Catalog.

Bachelor of Radiologic and Imaging Sciences Technology

The Salem Campus provides a Bachelor of Radiologic and Imaging Sciences Technology, designed for students pursuing studies related to medical imaging. Five concentrations are offered: computed tomography (CT), diagnostic medical sonography (DMS), magnetic resonance imaging (MRI), nuclear medicine technology (NMT) and radiation therapy (RTH). The options to pursue this major are the following:

- **Option I:** Completion of the Associate of Applied Science in Radiologic Technology prior to acceptance into the major. Available in the following concentrations: CT, DMS, MRI, NMT or RTH.

- **Option II:** Completion of an Associate of Science degree or completion of electives (freshman entry) prior to acceptance into the major. Available in the following concentrations: DMS, NMT or RTH. No previous radiologic technology program is required prior to acceptance into this option.

- **Option III:** Graduation from a hospital-based certificate program in radiologic technology (32 semester credits will be awarded), successful completion of the American Registry of Radiologic Technologist (ARRT) certification exam and completion of the Associate of Technical Studies in Radiologic Technology (see Catalog) prior to acceptance into the major. Available in the following concentrations: CT, DMS, MRI, NMT or RTH.

**Graduation Requirements**

To receive a Bachelor of Radiologic and Imaging Sciences Technology, students must satisfy the 37-hour minimum requirements stipulated in the Liberal Education Requirements (LER) and diversity requirement as indicated in this Catalog. Students must complete a minimum 39 upper-division (junior- and senior-level) courses. The cumulative grade point average must be minimum 2.00 for all coursework taken at Kent State University. Students must have minimum 2.75 GPA in the radiologic and imaging sciences technology core courses. Only general elective courses may be taken pass/fail. Students must complete all academic and clinical competencies in their core concentration.
### Computed Tomography Concentration

Students eligible for Option I or III may enroll in the computed tomography (CT) concentration.

### I. General College or University Requirements

- US 10097 First Year Experience FLASH Point

### II. Liberal Education Requirements

A complete list of liberal education requirement (LER) courses is on Pages 85-87.

#### Composition
- ENG 11011 College Writing I
- ENG 21011 College Writing II

#### Mathematics and Critical Reasoning

Choose from the following:
- MATH 11009 Modeling Algebra
- MATH 11010 Algebra for Calculus

#### Humanities and Fine Arts

Minimum one course from humanities category and minimum one course from fine arts category.

#### Social Sciences

Must be selected from two curricular areas.
- PSYC 11762 General Psychology

#### Basic Sciences

- CHEM 10050 Fundamentals of Chemistry
- PHY 21041 Physics in Entertainment and the Arts Laboratory

#### Additional LER courses

Courses must be selected from two categories, above. COMM 15000 Introduction to Human Communication and PHIL 11009 Principles of Thinking may also be taken within this category.

### III. Writing-Intensive Course Requirements

Students must complete a one-course writing-intensive requirement and earn minimum C (2.00) grade. This requirement is fulfilled in this concentration with RIS 44098. A complete list of writing-intensive courses is on Pages 93-95.

### IV. Major Requirements

- RIS 34084 CT/MRI Sectional Anatomy I
- RIS 34086 CT/MRI Sectional Anatomy II
- RIS 44021 Patient Management in Computed Tomography
- RIS 44022 Computed Tomography Procedures
- RIS 44024 Physical Principles of Computed Tomography
- RIS 44025 Computed Tomography Clinical Education I
- RIS 44027 Computed Tomography Clinical Education II
- RIS 44083 Pathophysiology for Medical Imaging
- RIS 44096 Individual Investigation in Medical Imaging Directly Readings
- RIS 44098* Research in Medical Imaging

### V. Upper-Division Electives

**OPTION I**

Additional Requirements

Technical requirements in radiologic technology

See requirements under the A.A.S. in radiologic technology program in this Catalog.

**TOTAL** 132-133

**OPTION III**

Additional Requirements

- COMT 11000 Introduction to Computer Systems
- Associate of Technical Studies in Radiologic Technology
- Lower-division electives

**TOTAL** 122-123

*Course fulfills writing-intensive requirement.

### Diagnostic Medical Sonography Concentration

Students eligible for Options I, II or III may enroll in the diagnostic medical sonography (DMS) concentration.

### I. General College or University Requirements

- US 10097 First Year Experience FLASH Point

### II. Liberal Education Requirements

A complete list of liberal education requirement (LER) courses is on Pages 85-87.

#### Composition

- ENG 11011 College Writing I
- ENG 21011 College Writing II

#### Mathematics and Critical Reasoning

Choose from the following:
- MATH 11009 Modeling Algebra
- MATH 11010 Algebra for Calculus

### III. Writing-Intensive Course Requirements

Students must complete a one-course writing-intensive requirement and earn minimum C (2.00) grade. This requirement is fulfilled in this concentration with RIS 44098. A complete list of writing-intensive courses is on Pages 93-95.
Regional Campuses

**Humanities and Fine Arts** ........................................ 9
Minimum one course from humanities category and minimum one course from fine arts category.

**Social Sciences**
Must be selected from two curricular areas.
PSYC 11762 General Psychology .................... 3
Social sciences LER course ......................... 3

**Basic Sciences** ........................................ 7-10
Students must choose the required courses for their option.

**Option I or III**
CHEM 10050 Fundamentals of Chemistry ............... 3
Basic sciences LER course ......................... 3
Choose from the following: ........................ 1
CHEM 10031 Chemistry in Our World Laboratory (1)
PHY 21041 Physics in Entertainment and the Arts Laboratory (1)

**Option II**
BSCI 20020 Biological Structure and Function .......... 5
PHY 13021 General College Physics Laboratory I ........ 3
10

**Additional LER courses** ........................................ 6
Courses must be selected from two categories, above. COMM 15000 Introduction to Human Communication and PHIL 11009 Principles of Thinking may also be taken within this category.

**Diversity Requirement**
Students must complete a two-course diversity requirement, consisting of one with a domestic (U.S.) focus and one with a global focus. One course must come from the LER, the second course may be taken as a second LER, within a minor or as a general elective. A complete list of diversity courses is on Pages 89-91.

**III. Writing-Intensive Course Requirements**
Students must complete a one-course writing-intensive requirement and earn minimum C (2.00) grade. This requirement is fulfilled in this concentration with RIS 44098. A complete list of writing-intensive courses is on Pages 93-95.

**IV. Major Requirements** ......................................... 41

TOTAL 121-122

*Course fulfills writing-intensive requirement.

ASSOCIATE DEGREE REQUIREMENTS

General Academic Requirements
In addition to completing a minimum of 61 semester hours of approved coursework and meeting all program requirements, candidates for an associate degree, entering the university in the Fall Semester 1980 or later with freshman standing, also must complete First Year Experience FLASH Point (US 10097), a 1-hour course.

To graduate, students must attain a minimum cumulative GPA of 2.00 for all coursework taken at Kent State University. Candidates for the Associate of Applied Business and Associate of Applied Science must attain a 2.00 cumulative GPA in the technical courses.

If students are required to take additional coursework to raise the GPA in the technical core to 2.00, the course(s) will be selected in consultation with the program advisor and approved prior to registration. It is required that such coursework be in the technical area. Candidates for the Applied Science in Nursing degree must attain a grade of at least C (2.00) in each nursing, biology, chemistry and nutrition course. Candidates in the applied science early childhood education program must attain a C (2.00) grade in every technical course.

Program Requirements
Before or upon completion of 32 semester hours, associate degree students are required to contact the student services office at their campuses to obtain an official program requirement sheet. This sheet should be completed in consultation with the students’ advisors and a copy returned to the Student Services office.

Requests for adjustments in program requirements must be approved prior to enrolling in a course that is not in the prescribed curriculum. Requests for adjustments will not be accepted during the semester in which the students expect to graduate, except when a course has been canceled at the beginning of that semester or upon determination of the campus dean that there have been mitigating circumstances.
Residency Requirements
Students seeking an associate degree must complete either the first 45 or final 15 hours of their programs at Kent State University to fulfill their residency requirement. This means that those hours must be completed either at the Kent Campus, at the Regional Campuses or some combination of both. Credit earned by means of transfer or correspondence courses do not count toward the hours required to fulfill residency.

Requirements for Additional Degrees
To pursue concurrent associate degrees, students must be in good academic standing and enrolled officially for a first, or primary, associate degree. Students may qualify to receive a concurrent associate degree by successfully completing all the requirements for both and a minimum of 15 credit hours beyond those required for the primary degree. To pursue a concurrent degree, students must: obtain advising from a faculty member in each degree program; complete a Program Requirement Sheet for each program; and receive approval from the Office of the Executive Dean for Regional Campuses. Only after approval is granted may students enroll for a second degree. Students must enroll for both degrees in time to meet graduation application deadlines for the semester in which they expect to receive the degrees.

Students who hold an associate, baccalaureate or graduate degree and wish to pursue an associate degree may do so by successfully completing all program and residency requirements, in addition to a minimum of 15 semester hours.

Because of the similarity in program requirements, the Associate of Arts and the Associate of Science degrees may not be earned concurrently; nor may either be awarded as an additional degree when one or the other has been previously conferred.

Pass/Fail, Advanced Placement and Credit Testing
Only pass/fail credits earned in experimental courses, CLEP, DANTES, Credit-By-Examination and credit-bearing advanced placement may be applied toward degree requirements in the Associate of Applied Business and Associate of Applied Science programs. The restrictions on pass/fail options for students seeking an Associate of Arts or Associate of Science degree are presented in another section of this Catalog.

The university policy on credit earned through advanced placement, CLEP and Credit-By-Examination also is presented in another section of this Catalog. Briefly, however, associate degree students may earn no more than 15 semester hours through a combination of advanced placement, CLEP and Credit-By-Examination toward their degrees. Noncredit-bearing advanced placement waives a requirement or prerequisite but not credit hours necessary for the degree.

Transient Work at Another University
Students who wish to take coursework at another accredited institution of higher education must be in good standing and receive prior approval of the campus dean if they intend to apply this work toward an associate degree. Only coursework earning a grade of C (2.00) or better will be considered for transfer to Kent State University. Neither the GPA nor the grades earned are used in computing the Kent State GPA.

Correspondence Course Credit
Kent State does not offer correspondence courses. Up to 6 semester hours of correspondence coursework from an accredited institution will be accepted toward an associate degree; however, each course must carry a grade of at least C and be applicable to the student’s associate degree program. Correspondence credit does not count toward the residency requirement.

Graduation
Associate degrees are conferred at each Regional Campus at the end of the academic term in which all requirements are successfully completed. Commencement ceremonies are typically held at the end of each academic year.

Application for Graduation
Graduation applications, information and deadline dates may be obtained from the Student Services office at each Regional Campus. Application for graduation may also be completed on the Web (at www.kent.edu/regional/students/graduation.cfm), printed and taken to the Student Services office. Completed application forms are to be returned by the deadline to that office. If students do not complete the proper application process, the degree will not be granted until the next term; however, it will be necessary for the student to reapply.

Graduation with Distinction
Candidates for associate degrees who demonstrate high levels of scholarship through their coursework will graduate with distinction. “With Distinction” is awarded when students achieve a GPA of 3.50 or better for all undergraduate coursework at Kent State University. In order for students to be considered for graduation “With Distinction” and have it inscribed on their diploma, a minimum of 32 credit hours must be completed at Kent State University. The students’ unadjusted GPA at the time the associate degree is conferred (which should be unadjusted by the application of the Academic
Forgiveness Policy, Course Repeat Policy or Rule for Recalculation of First-Year Grade Point Average), will be used in determining “With Distinction.”

ASSOCIATE DEGREES OFFERED AT EACH CAMPUS
The following is a list of associate degrees offered at each Regional Campus.

ASHTABULA CAMPUS
- Associate of Arts
- Justice Studies
- Associate of Science
- Associate of Applied Business
  - Accounting Technology
  - Business Management Technology
  - Computer Technology
  - Information Technology for Administrative Professionals
- Associate of Applied Science
  - Aviation Maintenance Technology
  - Early Childhood Education Technology
  - Electrical/Electronic Engineering Technology
  - Human Services Technology
  - Mechanical Engineering Technology
    (Integrated Manufacturing)
  - Nursing
  - Occupational Therapy Assistant Technology
  - Physical Therapist Assistant Technology
  - Radiologic Technology
  - Respiratory Therapy Technology
- Associate of Technical Study—Category A

EAST LIVERPOOL CAMPUS
- Associate of Arts
- Justice Studies
- Associate of Science
- Associate of Applied Business
  - Accounting Technology
  - Business Management Technology
  - Computer Technology
- Associate of Applied Science
  - Aviation Maintenance Technology
  - Early Childhood Education Technology
  - Electrical/Electronic Engineering Technology

  - Nursing
  - Occupational Therapy Assistant Technology
  - Physical Therapist Assistant Technology
  - Radiologic Technology
  - Respiratory Therapy Technology
- Associate of Technical Study—Category A

GEAUGA CAMPUS
- Associate of Arts
- Justice Studies
- Associate of Science
- Associate of Applied Business
  - Accounting Technology (most coursework)
  - Business Management Technology (most coursework)
- Associate of Technical Study—Category A
- Associate of Technical Study—Category B

KENT CAMPUS
Although the degree is conferred at a Regional Campus offering the program, coursework for the following degrees is available at the Kent Campus through the College of Technology.
- Associate of Applied Business
  - Business Management Technology
  - Computer Technology
- Associate of Applied Science
  - Computer Design and Animation Engineering Technology
  - Engineering of Information Technology
  - Manufacturing Engineering Technology

SALEM CAMPUS
- Associate of Arts
- Justice Studies
- Associate of Science
- Associate of Applied Business
  - Accounting Technology (most coursework)
  - Business Management Technology
  - Computer Technology
  - Information Technology for Administrative Professionals
- Associate of Applied Science
  - Early Childhood Education Technology
  - Horticulture Technology
  - Radiologic Technology
  - Respiratory Therapy Technology
  - Radiologic Technology
  - Radiology Department Management

STARK CAMPUS
- Associate of Arts
- Justice Studies
- Associate of Science
- Kent Stark/Stark State combined
- Associate of Technical Study—Category A
- Associate of Technical Study—Category B

2008-2009 Kent State University Undergraduate Catalog

  - Systems (Industrial) Engineering Technology
  - Veterinary Technology
- **Associate of Technical Study—Category A**

**ASSOCIATE DEGREE CURRICULA**

The following curricula list requirements for each associate degree program offered in the Regional Campuses.

Descriptions of courses for programs offered only at the Regional Campuses are marked with an asterisk (*) in the Course Information section of this Catalog and online.

**THE ASSOCIATE OF ARTS AND ASSOCIATE OF SCIENCE DEGREES**

The Associate of Arts and Associate of Science degrees may be used for several purposes: they may serve as freshman- and sophomore-year programs for students who are planning to complete a bachelor’s degree program; they may serve as degrees unto themselves for students who want to obtain a general education by sampling a variety of different subject areas; they may advance students’ careers or provide job retraining; and they provide opportunities for intellectual growth and personal satisfaction.

Because of the general nature of the programs, students may achieve emphasis in areas that will meet specific educational needs by taking a concentration of six courses in a particular field of study. **However, students should consult with their advisors in the selection of their courses prior to the beginning of each semester.**

The following meets the minimum requirements for each degree:

<table>

</tr>
</tbody>
</table>

The Associate of Arts and Associate of Science degrees include both required courses and electives. The required courses are to be selected from the university’s LER list (see Pages 85-87 for these courses). Electives should be chosen in the students’ area of interest. Students planning to pursue a bachelor’s degree should select electives to meet the requirements of the degree they are pursuing.

These degrees are offered at each of the seven Regional Campuses.
Associate of Arts in Justice Studies

Specialized advising sheets are available at selected campuses for the Associate of Arts in Justice Studies.

Associate of Arts/Science Kent Stark/Stark State

Specialized advising sheets are available at the Stark Campus for Associate of Arts and Associate of Science degrees which combine certain courses from Stark State with Kent courses.

A.A.B. in Accounting Technology

The Associate of Applied Business in Accounting Technology provides students with a broad range of practical accounting and communication skills and teamwork experience. These combined skills prepare students for immediate entry into the accounting technology field in numerous environments including manufacturing, retail, service and governmental organizations. Requirements articulate with the Accounting Technology certificate; contact an advisor for more information. This major is accredited by the Association of Collegiate Business Schools and Programs (ACBSP), 7007 College Blvd., Suite 420, Overland Park, KS 66211, 913-339-9356, www.acbsp.org. The degree is available at the Ashtabula, East Liverpool, Trumbull and Tuscarawas campuses. Most of the courses for this major are available at the Geauga and Salem campuses.

   TOTAL 60-61

*Students desiring to maximize credit application to a B.B.A. degree may substitute MATH 11012 or 10041 for their technical electives. In consultation with an advisor, students may select from ACTT, BMRT, COMT or ITAP courses.

A.A.B. in Business Management Technology

The Associate of Applied Business in Business Management Technology provides students with a core consisting of written and oral communication skills, management skills, accounting, marketing, e-commerce, economics and liberal arts courses. In addition, the program offers technical options that allow students to specialize in marketing/sales, entrepreneurship/small business, manufacturing management and general business management. In some cases, students may have the opportunity to participate in internships, which help to link theory with hands-on practice. Requirements articulate fully or in part with the Business Management, Entrepreneurship and Manufacturing Management certificates; contact an advisor for more information. This major is accredited by the Association of Collegiate Business Schools and Programs (ACBSP), 7007 College Blvd., Suite 420, Overland Park, KS 66211, 913-339-9356, www.acbsp.org. The degree is available at the Ashtabula, East Liverpool, Salem, Trumbull and Tuscarawas campuses. Most of the courses in this major are available at the Geauga Campus and the Kent Campus through the College of Technology.

A.A.B. in Computer Technology

The Associate of Applied Business in Computer Technology provides students with a core consisting of programming, operating systems and networks, Web site development and workgroup productivity technologies. Students may choose from concentrations in specific areas including networking, applications development and Internet/multimedia technologies. These concentrations allow students to focus their studies and begin to prepare for various professional certifications. There is also a general concentration that prepares students for positions in small- and medium-sized organizations that require computer staff to perform a wide variety of technical duties. In addition, the concentrations may articulate fully or in part with available certificates in microcomputer applications, database administrator and
advanced Internet; please contact an advisor for more information. This major is accredited by the Association of Collegiate Business Schools and Programs (ACBSP), 7007 College Blvd., Suite 420, Overland Park, KS 66211, 913-339-9356, www.acbsp.org.

The degree is available at the Ashtabula, East Liverpool, Geauga, Salem, Trumbull and Tuscarawas campuses with courses available at the Kent Campus through the College of Technology.

A.A.B. in Information Technology for Administrative Professionals

The Associate of Applied Business in Information Technology for Administrative Professionals provides students with the opportunity to learn current business developments that shape administrative functions. Students use the most current versions of business software applications including word processing, spreadsheets, desktop publishing and visual presentations. In addition, students learn the fundamentals of accounting, automated records management, business communications and resource management. Requirements articulate fully with the Desktop Publishing certificate; contact an advisor for more information. This major is accredited by the Association of Collegiate Business Schools and Programs (ACBSP), 7007 College Blvd., Suite 420, Overland Park, KS 66211, 913-339-9356.

*With a faculty advisor’s approval, this course may be taken credit-by-exam or replaced with a more advanced mathematics, statistics or accounting course.

**This course may be applied as a related elective if taken prior to or concurrently with any other COMT or ITAP offering.

B.S. in Integrated Business Education

Students interested in a four-year degree in integrated business education should follow the program outlined under Career Technical Teacher Education in the College of Education, Health, and Human Services section of this Catalog.

A.A.S. Aviation Maintenance Technology

Aviation Maintenance Technology provides students with the knowledge, skills and experience necessary to become an aircraft technician. Coursework meets Federal Aviation Administration (FAA) training requirements and qualifies graduates to sit for FAA examinations to become a certified Airframe and Powerplant technician. Topics include aircraft structures, aircraft power systems, aviation electronics and hydraulic systems. Students interested in this program must meet with an advisor prior to admission to the major. This degree is available at the Ashtabula Campus.

A.A.S. in Computer Design and Animation Engineering Technology

The Associate of Applied Science in Computer Design and Animation Engineering Technology provides students with coursework in design, animation and virtual reality. Computer-aided design (CAD) is used throughout the program for computer modeling and multimedia development. This program prepares
students for entry-level positions as drafter/designer technicians in engineering and manufacturing industries, as well as in the field of multimedia development. This major articulates with the Computer-Aided Drafting certificate and the technology 2+2 baccalaureate degree; please contact an advisor for more information. This program is available at the Tuscarawas Campus, with coursework available at the Geauga Campus, and Kent Campus through the College of Technology.

A.A.S. in Early Childhood Education Technology

The Associate of Applied Science in Early Childhood Education Technology (ECET) is offered at the Ashtabula, Salem and Tuscarawas campuses. A minimum of 2.00 GPA (C grade) is required in each technical course and a minimum 2.00 cumulative GPA is required for graduation. Students who successfully complete this program are eligible to apply for Ohio’s associate degree preschool license.

The coursework for this associate degree also is fully applicable to the baccalaureate degree in early childhood education at either the Kent or Salem campuses, although completion of the associate degree does not guarantee admission to the baccalaureate program. Students who wish to be admitted to the baccalaureate degree program at the Kent Campus need to check the Early Childhood Education section under the College of Education, Health, and Human Services for admission requirements and other information about this selective admission program.

The baccalaureate program at Kent State Salem is also selective, following standards established at the Kent Campus. To be considered for admission, students must meet all professional requirements for admission to advanced study, have a minimum cumulative 2.75 GPA in all previous Kent State undergraduate coursework and have completed the ECET associate degree. The most qualified applicants will be accepted based upon the number of available student spaces and consideration of the student’s standardized test scores, cumulative GPA, written essay and interview.

For information about the Kent State Salem baccalaureate program, students should contact the Kent State Salem program director for early childhood education the semester before beginning the associate degree student-teaching experience. Because there are limited spaces available, meeting the minimum criteria listed above does not guarantee admission to the program. Students who successfully complete the baccalaureate curriculum are eligible to apply for an Ohio license, valid for teaching children in preschool through grade three.

### A.A.S. in Environmental Technology

The Associate of Applied Science in Environmental Technology provides students with a working knowledge of the source, nature and scope of conditions that are or could be hazardous to the environment. Topics include toxic waste, occupational safety, pollution and industrial hygiene. In addition to the environmental core, students complete selected basic science and appropriate liberal education courses. Students interested in continuing their studies in the Associate of Science degree major is available at the Trumbull Campus.

### A.A.S. in High Technology Manufacturing

The Associate of Applied Science in High Technology Manufacturing provides students with a solid foundation in mathematics, chemistry and electronics, and then introduces topics in semiconductor manufacturing and photonics. Students gain an understanding of the complete process of taking silicon from its raw state, fashioning it into wafers, manufacturing integrated circuits on the wafers and finally testing the integrated circuit to determine if it performs to the specifications set for the product. Students will learn the application and use of lasers, lightwave communications and optoelectronic devices. This major is available at the Trumbull Campus.

The Associate of Applied Science in Horticulture Technology prepares students for careers in landscape management, turf management, tree care, nursery and greenhouse operations and related horticultural professions. In addition to a core of horticulture and basic science courses, the major provides three areas of concentration: urban forestry, landscape design and turfgrass management. The program emphasizes practical experience through hands-on training in outdoor labs and site visits to employers. Students complete two paid summer internships in their areas of concentration. This program is available at the Geauga and Salem campuses.

A.A.S. in Mechanical Engineering Technology

(Integrated Manufacturing)

The Associate of Applied Science in Mechanical Engineering (integrated manufacturing) Technology provides students with knowledge and skills in the manufacturing areas related to computer-controlled equipment and integrated manufacturing. Topics include drafting, CAD/CAM, materials testing and robotics applications. There are four concentrations available: general (available at the Ashtabula, Trumbull and Tuscarawas campuses); polymer and radiation polymer (available at the Ashtabula and Trumbull campuses); and systems, which is individualized and
developed with the guidance of a faculty advisor (available only at the Ashtabula Campus). In addition, the concentrations may articulate fully or in part with available certificates in computer-aided drafting, plastics manufacturing and radiation polymers and the technology 2+2 baccalaureate degree. Please contact an advisor for more information.

A.A.S. in Nursing

The Associate of Applied Science in Nursing is available at the Ashtabula, East Liverpool, Geauga and Tuscarawas campuses. Students interested in the program should apply directly to one of these campuses and meet with the director of nursing for additional application details concerning advanced placement, etc. Detailed information and requirements for admission, satisfactory progress and graduation are in the brochure for this program. A copy of the brochure may be obtained from the program director.

With the successful completion of the program, graduates are awarded an Associate of Applied Science in Nursing and are eligible to apply to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN).
Regional Campuses

The Associate Degree in Nursing program is accredited by the National League for Nursing Accrediting Commission, 61 Broadway, 33rd floor, New York, NY 10006, 212-363-5555, ext. 153, www.nlnac.org.

**Note 1: Minimum C (2.00) grade in theory and a designation of “passing” for performance in the clinical area must be achieved for each nursing course. A 2.00 GPA must be maintained in the nursing program. Minimum C (2.00) grade in all required courses, including related courses, general studies courses and prescribed developmental courses.

**Note 2: Course must be completed within the past five years prior to admission to the program.

***Note 3: Minimum C (2.00) grade in all required courses, including related courses, general studies courses and prescribed developmental courses. All related courses must be completed within the past seven years prior to admission to the program.

****Note 4: Minimum C (2.00) grade in all required courses, including related courses, general studies courses and prescribed developmental courses. All related courses must be completed within the past seven years.

*****Note 5: Elective must be in the area of communication, management, computer, psychology, sociology, foreign language or LER. Permission should be obtained from the director of nursing.

The associate degree in nursing program, Regional Campuses, reserves the right to initiate changes in the program as deemed necessary for maintaining quality nursing education.

A.A.S. in Occupational Therapy Assistant Technology

The Associate of Applied Science in Occupational Therapy Assistant Technology is offered at the Ashtabula and East Liverpool campuses. This program is fully accredited by the Accreditation Council for Occupational Therapy Education (ACOTE), 4720 Montgomery Lane, P.O. Box 31220, Bethesda, MD 20824-1220, 301-652-AOTA (2682), www.aota.org. With successful completion of the program, graduates are awarded the Associate of Applied Science in Occupational Therapy Assistant Technology (OCAT) and are eligible to sit for the National Certification Examination for Occupational Therapy Assistants administered by the National Board for Certification in Occupational Therapy (NBCOT). Admission to the OCAT major requires the following: admission to the university; completion of the COMPASS test and, if necessary, recommended coursework; a minimum of 40 hours of volunteer time in at least two different occupational therapy settings; high school or college courses in algebra and general biology; and a 2.50 GPA. Students interested in the program should apply directly to the Ashtabula or East Liverpool campus and meet with the program director. Applicants not admitted directly to the OCAT program will be admitted as pre-major students. Detailed information and requirements for admission may be obtained from the Kent State Ashtabula or East Liverpool campus program offices.

I. TECHNICAL COURSES ................................... 35
   OCAT 10000 Introduction to Occupational Therapy .... 3

   20004 Therapeutic Techniques III: Developmental
   Disabilities ............................................... 3
The Associate of Applied Science in Physical Therapist Assistant Technology program is offered at the Ashtabula and East Liverpool campuses. The program is accredited by the Commission on Accreditation in Physical Therapy Education, 1111 N. Fairfax St., Alexandria, VA 22314, 703-706-3245, www.apta.org. With the successful completion of the program, graduates are awarded the Associate of Applied Science in Physical Therapist Assistant and are eligible to take the licensing examination given by the state of Ohio Board of Occupational and Physical Therapy. Students interested in the program should apply directly to the Ashtabula or East Liverpool campus program director. Applicants not admitted directly to the program may be admitted as pre-major students. Detailed information and requirements for admission may be obtained from the Ashtabula or East Liverpool campus program offices.

Note: Clinical education must be successfully completed within 18 months of the didactic coursework.

Minimum C (2.00) grade in all required courses, including OCAT and related courses, general studies courses and prescribed developmental courses.

The associate degree in occupational therapy assistant program, Regional Campuses, reserves the right to initiate changes in the program as deemed necessary for maintaining quality education for the students.

*Course must have focus in: BSCI, COMM, PSYC or SOC.

Note: Clinical education must be successfully completed within 18 months of the didactic coursework.

Minimum C (2.00) grade in all required courses, including OCAT and related courses, general studies courses and prescribed developmental courses.

The associate degree in occupational therapy assistant program, Regional Campuses, reserves the right to initiate changes in the program as deemed necessary for maintaining quality education for the students.

*COMM 15000 Introduction to Human Communication is recommended. Please see Pages 85-87 for complete list of Liberal Education Requirements (LER) courses.

Minimum (2.00) grade in theory and a “passing” designation in the clinical and laboratory components must be achieved for each physical therapy assisting course to progress to the next course in the program sequence.

The associate degree in physical therapist assistant technology program reserves the right to initiate changes in the program as deemed necessary for maintaining quality education for the students.
A.A.S. in Plastics Manufacturing Engineering Technology

The Associate of Applied Science in Plastics Manufacturing Engineering Technology provides students with knowledge and skills in both simulated and actual manufacturing environments in the areas of materials, design, computer-controlled equipment and manufacturing processes specific to the plastics industry. The program emphasizes the development of strong mathematical and analytical problem-solving skills and provides a foundation in chemistry and physics. It also incorporates computer applications in manufacturing processes and product development. Requirements articulate with the Plastics Manufacturing certificate and the technology 2+2 baccalaureate degree. Contact an advisor for more information. This major is available at the Trumbull and Tuscarawas campuses.

A.A.S. in Radiologic Technology

The Associate of Applied Science in Radiologic Technology is offered at the Ashtabula and Salem campuses. The Salem Campus program is approved and accredited by the Joint Review Committee on Education in Radiologic Technology, JRCERT, 20 N. Wacker Drive, Suite 900, Chicago, IL 60606-2901, 312-704-5300, www.jrcert.org. With the successful completion of the program, graduates are eligible to take the certification examination administered by the American Registry of Radiologic Technologists.

Admission to the program is on a selective basis due to the limited number of students approved for each clinical education center. The application deadline is Feb. 1. Program applicants are encouraged to meet with an advisor at the Ashtabula or Salem campuses to discuss the minimum admission requirements. Detailed information and requirements for admission, satisfactory progress and graduation are in the student handbook for this program. A copy of the handbook may be obtained from the program directors.

### A.A.S. in Respiratory Therapy Technology*

*Pending Approval by the Ohio Board of Regents

The Associate of Applied Science in Respiratory Therapy Technology is offered at the Ashtabula Campus. With successful completion of the program, graduates are eligible to sit for the registry examination to become a Registered Respiratory Therapist. Respiratory therapists work as members of a team of healthcare professionals working in a wide range of clinical settings to evaluate, treat, and manage patients of all ages with respiratory illnesses and other cardiopulmonary disorders. Students interested in the program should apply directly to the Ashtabula Campus and meet with the program director.

#### I. Technical Courses

### A.A.S. in Systems/Industrial Engineering Technology

The Associate of Applied Science in Systems/Industrial Engineering Technology provides students with knowledge and skills in the areas of analysis and measurement in a variety of industries. Students receive hands-on experience with the equipment used in machine tool operations, testing and analysis and computer-aided design. This major is available at the Trumbull and Tuscarawas campuses. Systems engineering also is available as an individualized program option under mechanical engineering technology at the Ashtabula Campus. Not all courses are available at all campuses, nor are all courses regularly scheduled.

#### I. Technical Courses

- EERT 22014 Microprocessors and Robotics
- IERT 22000 Statistical Process Control
- 22006 Economic Decision Analysis
- 22010 Computer Integrated Manufacturing
- MERT 12000 Engineering Drawing
- 12001 Computer-Aided Drafting
- 12004 Manufacturing Processes
- 22009 Robotics and Flexible Automation

**Choose 10 hours from the following:**

- COMT 21008 Computer Methods in Science and Engineering
- EERT 22004 Digital Systems
- IERT 12005 Applications in CAD (2)
- 22001 Motion and Time Study
- 22003 Supervision and Labor Relations (5)
- 22004 Facilities Engineering
- 22005 Production and Inventory Control (2)
- 22008 Taguchi Process Improvement

**TOTAL 70-71**

#### II. Related Courses

- EERT 22003 Technical Computing
- MATH* 11011 College Algebra
- 11012 Intuitive Calculus
- 11022 Trigonometry
- PHY 12201 Technical Physics I
- 12202 Technical Physics II

**TOTAL 19**

#### III. General Studies Courses

- COMM 15000 Introduction to Human Communication
- ENG 11011 College Writing I
- 20002 Introduction to Technical Writing
- Social Sciences or Humanities electives

**TOTAL 70**

*Tuscarawas students must take MATH 11011, 11022, 19002 (10 hours) or MATH 12001, 12002 (9 hours) due to ABET accreditation.*
Regional Campuses

A.A.S. in Veterinary Technology

The Associate of Applied Science in Veterinary Technology program is offered at the Tuscarawas Campus. With the successful completion of the program, graduates are awarded the Associate of Applied Science in Veterinary Technology and are eligible for registration in the state of Ohio. Students interested in the program should apply directly to the Tuscarawas Campus and meet with the campus program director. Admission to the program is selective. Applicants not admitted directly to the program may be admitted as pre-major students. Detailed information and requirements for admission, satisfactory progress and graduation can be obtained from the Kent State Tuscarawas program office.

Associate of Technical Study - Category A

The Associate of Technical Study program is open to students who need a specially designed course of study in a technical field. It consists of courses offered at the students’ campus that suit the students’ career goals. Degree programs must be planned with the help of a faculty advisor.

The program consists of a minimum of 61 semester hours of coursework, including First Year Experience FLASH Point. At least 30 hours are “technical core” courses that offer education central to students’ career goals. At least 15 hours must consist of basic courses that provide background to the technical core, and at least 15 hours must be selected from the LER on Pages 85-87. The degree program should not exceed 73 hours.

Degree programs must be approved by the faculty advisor, the campus dean and the dean for academic affairs, Regional Campuses. At least 32 hours must be completed after approval of the written degree program proposal.

The Associate of Technical Study may be conferred as a concurrent degree or after receiving a prior degree. At least 24 hours of coursework must be completed after approval of the program, and the program must include at least 24 hours of work in addition to the prior or concurrent degree.

Forms for developing an ATS program proposal can be obtained at any Regional Campus student services office.

Associate of Technical Study - Category B

The Associate of Technical Study program, Category B, provides associate degree-level completion based on a technical certificate or other formal technical training program acquired outside Kent State University. The block of credits awarded for technical training outside Kent State University is not applicable to any other degree programs. See Radiologic Technology Completion Program on Page 422 of this Catalog.

Allied Health Management Technology*

*Pending Approval by The Ohio Board of Regents

The Trumbull Campus offers an associate of technical studies degree completion program for students who have completed a state-certified allied health program and hold an accredited certificate.
Students interested in this program should apply to the Trumbull Campus and must meet with an advisor to be admitted to the program. Upon admission to this program, up to 27 credit hours will be held in escrow on the basis of student’s accredited certification. These credit hours will be awarded upon successful completion of at least 39 additional credit hours of courses selected in accordance with the following curriculum.

I. Technical Courses .......................................................33
   *Accredited certificate ........................................... up to 27**
   BMRT 11000 Introduction to Business ......................3
   11009 Introduction to Management Technology ...........3

II. Related Courses ..........................................................17
   ACTT 11000 Accounting I-Financial ..........................4
   11001 Accounting II-Managerial .............................4
   BMRT 21006 Human Resources Management .............3
   COMT 11000 Introduction to Computer Systems ...........3
   12000 Personal Productivity Software ....................3

   COMM 15000 Introduction to Human Communication ........3
   ENG 11011 College Writing I .................................3
   21011 College Writing II ..................................3
   MATH 11010 Algebra for Calculus ..........................3
   US 10097 First Year Experience FLASH Point ............1

Choose from the following: ........................................... 3-4
   JUS 26704 Issues in Law and Society (3)
   PSYC 11762 General Psychology (3)
   SPED 19201 American Sign Language I (4)
   or any foreign language (4)

   TOTAL 66

*If credits awarded for accredited certificate are fewer than 27 hours, additional courses in Applied Business Technology must be taken in order to meet the required 33 credit hours in the Technical Courses section.

**Based on Council for Adult and Experiential Learning (CAEL) ratio of 1 vocational credit to 30 clock hours.

Emergency Medical Services Technology

The Geauga Campus offers an associate degree completion program for students who have completed a state-certified paramedic training program and hold a current paramedic certificate.

Students interested in this program should apply to the Geauga Campus and must meet with an advisor to be admitted to this program. Upon completion of this program, students will be granted 30 credit hours on the basis of their paramedic certification training. In addition, they must successfully complete a minimum of 34-35 hours of courses selected in accordance with the following curriculum.

I. Technical Courses .......................................................30
   BSCI 10001 Human Biology ..................................3
   20020 Biological Structure and Function ..................5
   BMRT 11009 Introduction to Management Technology ....3

MATH 11012 and (11010 or 12001)
PSYC 11762 and 21211

TOTAL 68-69

The total degree will consist of 68-69 hours. Coursework may be pursued at any Regional Campus offering appropriate courses, but students must be advised by the director of radiologic technology, housed at the Salem Campus.

Radiologic Technology Completion Program

The Salem Campus offers associate degree completion programs for certified radiologic technologists and diagnostic medical sonographers who have completed their training at an accredited institution and have been certified by the American Registry of Radiologic Technologists or American Registry of Diagnostic Medical Sonographers.

Students interested in one of these programs should apply to the Salem Campus and meet with the director of radiologic technology for additional application details. Upon admission to these programs, students will be granted 32 credit hours on the basis of their certification. In addition, they must successfully complete a minimum of 32 or 33 hours of courses selected in accordance with the following curricula:

• Associate of Technical Study in Diagnostic Medical Sonography
• Associate of Technical Study in Nuclear Medicine Technology
• Associate of Technical Study in Radiation Therapy Technology
• Associate of Technical Study in Radiologic Technology

Credits awarded on the basis of certification ................ 32

US 10097 First Year Experience FLASH Point ........... 1

TOTAL 66

*Up to six semester hours of RADT 14096 or 24196, Individual Investigation, may be used for this requirement.

**MATH 10004 Developmental Mathematics and MATH 10005 Introduction to College Mathematics and MATH 10031 through 10036 Fundamentals of Mathematics I-VI cannot be included in this section.
AIR FORCE RESERVE OFFICER TRAINING CORPS (AFROTC)

Overview
The Air Force ROTC (AFROTC) program provides professional preparation for students considering service as officers in the U.S. Air Force. The program offers information on Air Force career opportunities and the role of the military in the American society.

CURRICULUM
Registering
Courses normally are taken for academic credit as part of the students’ electives. Entering freshmen and sophomores may register for aerospace studies courses at the same time and in the same manner as they enroll in their other college courses.

The curriculum in aerospace studies is divided into two parts: the General Military Course (usually taken during the freshman and sophomore years) and the Professional Officer Course (normally taken during the junior and senior years). Air Force officers are assigned as full-time faculty members and teach all aerospace studies courses. Freshmen may register for ASTU 10101 and 10103 for the fall term and ASTU 10102 and 10104 for the spring term; sophomores may register for ASTU 20101 and 20103 for the fall term and ASTU 20102 and 20104 for the spring term. The courses include 1 hour of academic instruction and a 2-hour leadership laboratory each week. Nonscholarship students incur no military obligation when enrolled in freshman- and sophomore-level courses. Juniors will register for ASTU 30101 and 30103 for the fall term and ASTU 30102 and 30104 for the spring term. Continuing seniors in the AFROTC program will register for ASTU 40101 and 40103 for the fall term and ASTU 40102 and 40104 for the spring term. Upon accepting a scholarship or beginning the first day of the junior-level course, students must contract with AFROTC and incur a military obligation. Students may enroll in any level AFROTC academic course (except leadership laboratory) for elective credit only and not incur a military obligation. Due to the excellent leadership and management training, as well as the hands-on experience in the POC, the students are eligible to receive additional credit for activities completed while in the program.

The General Military Course
The General Military Course (GMC) is offered in four-part lower-division aerospace studies courses. Each course consists of 1 hour of academic instruction per week and 15 leadership laboratory contact hours per semester. Nonscholarship membership in the GMC affords students the opportunity to learn about the Air Force and its role in the American society. Students who do not want commissions may take the aerospace studies courses for academic credit only. There is no military obligation incurred by enrolling in the GMC.

The Professional Officer Course
The Professional Officer Course (POC) is a four-part upper-division aerospace studies course. Each course consists of 3 hours of academic instruction per week and 15 leadership laboratory contact hours per semester. Entrance into the POC is limited to qualified students desiring to compete for Air Force commissions. Enrollment in this program is based upon a cumulative GPA, physical qualifications and leadership potential.

Veterans with previous honorable, active, U.S. military service who wish to enroll in the POC may be eligible for a waiver of either the GMC or its equivalent as an entrance requirement. Veterans who meet all other requirements will be enrolled at the beginning of their junior year.

Uniforms and textbooks are provided at no charge to all students enrolled in AFROTC. Textbooks are returned upon completion of each academic year or upon withdrawal from the course. Uniforms are returned upon withdrawal from the course.

FINANCIAL ASSISTANCE
Students who demonstrate academic and leadership potential may be selected by the professor of aerospace studies to compete for scholarships. These scholarships are for two or three years, and are awarded in all majors. The scholarship award includes tuition, textbook allowance, some course fees and a monthly tax-free stipend.

Scholarship Program
Air Force ROTC students enrolled in the Professional Officer Course (juniors and seniors) who are not already on scholarship are eligible for a $450-$500-per-month stipend. Room incentive scholarships are also available.

Scholarship Statement of Understanding
Air Force ROTC scholarship recipients must meet and maintain certain academic and military retention standards and serve in the active-duty Air Force after graduation.

CONTACT INFORMATION
For further information, contact the Department of Aerospace Studies, AFROTC DET 630, 104 Terrace Hall, Kent State University, Kent, OH 44242, at 330-672-2182 or e-mail det630@kent.edu.
ARMY RESERVE OFFICER TRAINING CORPS (ARMY ROTC)

Overview
Kent State University's Army ROTC has served the university and the nation since 1947 by preparing students for service as professional officers in the United States Army. Since its inception, the department has commissioned over 1,100 officers. The military science program at Kent State offers a four-year course of study that adds practical management training and leadership experiences to students' chosen academic degrees.

Students whose career goals require leadership or managerial skills, those with an interest in the national defense structure and role of the military in society, or those students wishing to explore the financial benefits of the ROTC program and the Army are encouraged to enroll in the introductory lower-division military science courses. These courses can be applied as elective credit toward most undergraduate degrees. Enrolling in military science courses follows the same procedure as other university courses. Participation is voluntary and requires no military obligation.

CURRICULUM
The military science curriculum is unified by the study of leadership, discipline and personnel management. Students will study leadership theory and dynamics through case studies, Army doctrine, military history and practical exercises. The program is divided into two segments: the Basic Course and the Advanced Course.

Basic Course
The Basic Course introduces students to the role of the military in our society, the fundamentals and dynamics of leadership and management, and the practical application of these fundamentals. There is no military obligation for enrolling in any of the Basic Course classes, and all undergraduates are eligible to enroll. Freshmen are encouraged to enroll in MSCI 10180 and MSCI 10185 with the accompanying leadership seminar MSCI 10191. Sophomores are encouraged to contact the program's enrollment officer for guidance on military science placement. Students who have prior military service through active or reserve components can receive basic course credit and are eligible for placement into the Advanced Course.

Advanced Course
The Advanced Military Science courses are open to students who have completed the Basic Course requirements and desire to commission as Army Officers. These upper-division courses involve military leadership, Army logistics, personnel management principles, ethics, military law and further will enhance the preparation of the professional officer. An additional 32-day summer practicum allows students to put into practice their learned skills while being evaluated on their leadership abilities. Students who successfully complete the Advanced Course and earn their degrees from Kent State University will serve as officers in the U.S. Army.

FINANCIAL ASSISTANCE PROGRAMS
Scholarships
Students who demonstrate academic and leadership potential may apply for Army ROTC four-, three- and two-year scholarships. The scholarship pays tuition and fees (excluding flight fees) up to $20,000; $300- to $500-per-month tax-free grant; and $1,200-per-year book allowance. Two- and three-year scholarship applications are available only on campus and are under the immediate control of the Army ROTC program. Applications are taken year-round. Scholarship eligibility criteria include: college GPA, ACT/SAT results (three- and four-year applicants only), extracurricular activities and work, an interview and review board. Four-year scholarship applications are due by Dec. 1 of the students' senior year in high school. Those who are interested may contact our office, their local guidance counselor, or 800-USA-ROTC for an application or apply online at www.armyrotc.com. All scholarships are awarded based on merit rather than need, and on-campus scholarships are on a first-come basis. All academic majors are eligible to apply.

University Incentives
For students interested in participating or who are currently enrolled, Kent State University has given our ROTC program dormitory room incentives and financial incentives to use toward discretionary scholarships. These incentive scholarships are awarded annually to scholarship and nonscholarship students in our program.

OTHER PROGRAMS AND INFORMATION
Simultaneous Membership Program
Members of the Army National Guard or Army Reserves or students who have completed the ROTC Basic Course are eligible to participate in the Simultaneous Membership Program (SMP). SMP students serve as officer trainees in a local National Guard or Reserve unit while attending Kent State University full time and taking military science classes. Upon graduation and completion of the ROTC program, SMP students either will receive a commission as a second lieutenant in the National Guard or Reserves or go on active duty. In addition to becoming officers, students will receive all eligible financial benefits of the National Guard or Reserves. All students currently participating in a National Guard or Reserve program while attending Kent State University should look into the Army ROTC program. Service time while in school counts toward your military pay.
Leader’s Training Course (LTC)
Students who have not taken the Basic Course classes but wish to pursue a commission and receive some financial benefits of the ROTC program can attend a 28-day summer camp in lieu of the two-year Basic Course. Leader’s Training Course (LTC) teaches the skills required to complete the on-campus program and offers students practical leadership experience by performing as cadet leaders throughout the camp. LTC is challenging, both mentally and physically. Upon completion, students are eligible for placement in the Advanced Course, two-year scholarship benefits and entrance into the SMP program (see above). In addition to LTC, there are other “Alternative Entry Options” to begin your ROTC Advanced Course program. Contact us.

Career Opportunities
The Army has 16 branches with a variety of job descriptions for newly commissioned officers. Areas such as communications, finance, military intelligence, Corps of Engineers, military police, nursing, etc., offer the new officer a variety of career options. Whether the Army is a career aspiration or a résumé-building first job, the opportunities are limitless.

Departmental Programs
Students may elect to participate in activities beyond their course of study. Other activities such as physical conditioning, land navigation, rifle marksmanship and water survival are examples of other programs complementing the military science study. Airborne and Air Assault School training also is available to qualified students.

The ROTC Cadet Ranger team is a training-oriented student group emphasizing leadership experiences, group dynamics and advanced military skills. Team members compete in regional competitions against other university programs.

Miscellaneous
The following are some final highlights of the Army ROTC program.

- Students who enter active military service after graduation may defer payment of national direct student loans or nursing student loans for up to three years.
- The Department of Military Science also offers the Advanced Course cadets “staff rides,” trips to historic sites where military campaigns and history are studied. Staff rides include the cost of transportation and lodging. Past trips included sites such as Niagara Falls, Canada and Gettysburg.

Contacts and Information
The Army ROTC staff at Kent State University is available year-round to provide additional information or answer questions concerning these academic programs, scholarship opportunities and enrollment requirements. The office is located in 106 Terrace Hall on the university’s Kent Front Campus and can be reached by telephone at 330-672-2769; by fax at 330-672-3690; or on the Web at www.kent.edu/rotc.

SERVICE-MEMBERS OPPORTUNITY COLLEGES
Kent State University is a member of Service-Members Opportunity Colleges, a consortium of over 1300 institutions pledged to be reasonable in working with service members and veterans trying to earn degrees even while pursuing demanding, transient careers. As a SOC member, we are committed to easing the transfer of relevant course credits, providing flexible academic residency requirements, and credit learning from appropriate military training and work experiences. SOC is sponsored by 15 national higher education associations with the military services, the National Guard bureau and the Office of the Secretary of Defense serving as cooperating agencies.
COMBINED BACCALAUREATE AND MASTER’S PROGRAM

Persons with outstanding undergraduate records or exemplary professional credentials may be eligible for one of the following enrollments in a combined baccalaureate and master's program:

I. A Combined Baccalaureate/Master’s for Degree Students Early In Their Undergraduate Studies

   Students who have achieved a GPA of one of the following
   • 3.50 after 60 semester hours
   • 3.40 after 75 semester hours
   • 3.30 after 90 semester hours
   • 3.20 after 105 semester hours
   may apply for early admission to a master's degree program by successfully accomplishing the following:

   A. Completing the Application for Admission.

   B. Completing the Combined Baccalaureate and Master’s Program form, which includes:
      1. Listing the courses at the undergraduate level that need to be taken for the baccalaureate degree.
      2. The beginning date for graduate study.
      3. Listing of graduate courses to be utilized in satisfying the undergraduate degree. (In participating departments/schools, students may apply up to 12 of their accumulated graduate hours toward the completion of their undergraduate degree requirements as well. The students’ undergraduate department will determine the undergraduate coursework for which graduate credits may be substituted.) In some departments graduate coursework may be substituted only for elective undergraduate coursework and cannot be used as substitution within the major. (Please check with the graduate coordinator in your individual department.) The selection of the graduate coursework and the number of credits to be applied toward an undergraduate degree requires the approval of the graduate chair in the students’ academic department and the appropriate undergraduate and graduate deans.

   C. Providing three letters of recommendation from the instructors who are familiar with the students’ achievements and intended academic goals.

   D. Submitting any needed test scores from standardized examinations.

II. Combined Baccalaureate/Master’s Program for Specified Professional Programs

   A. Combined Baccalaureate/Master’s Degree Program in Speech Pathology and Audiology Leading to Clinical Certification
   Students who have earned 90 semester hours and achieved a minimum GPA of 3.00 may, with approval of the School of Speech Pathology and Audiology, apply for admission to the combined program. Admission will be based upon satisfactory GRE scores, three letters of recommendation and completion of the Application for Admission and Combined Baccalaureate and Master’s Program forms.

   B. Combined Baccalaureate/Master’s Program in the College of Business Administration and Graduate School of Management
   Students must have earned 90 semester hours to apply for the Combined Baccalaureate/Master’s Program in the College of Business Administration. In addition, they must meet the GPA requirements outlined under Item I.

   C. Combined Baccalaureate/Master’s Program in the Center for International and Comparative Programs and the Graduate School of Management Leading to the Bachelor of Arts and Master of Business Administration Degrees
   Students must be international relations majors and complete their undergraduate coursework in the first three years of study. In addition, students must pass a language proficiency exam, have a cumulative GPA of 3.30 and earn a minimum GMAT score of 525 before being admitted to the M.B.A. program. In the fourth year of this combined program, students take graduate business courses that are applicable to the undergraduate degree as electives and to the M.B.A. degree as foundation coursework. During the final year, students take advanced graduate business coursework leading to the M.B.A. degree.
D. Combined Baccalaureate in Fashion Merchandising/Master of Business Administration in the College of Business and Graduate School of Management

Fashion merchandising majors who qualify may enroll in the combined Bachelor of Science in Fashion Merchandising/Master’s of Business Administration program and complete both degrees within five years. Careful planning and advising are needed in order to successfully complete the programs in a timely way. Students intending to follow this plan should work closely with their faculty advisor. In the freshman year, the math choice should be MATH 11012 or MATH 12002. When the student has achieved 90 hours or more in the merchandising program (beginning of the junior year) and has a GPA of 3.30 or higher, he or she should apply for conditional admission to the M.B.A program. This application must occur no later than April 1 of the junior year. The GMAT exam must be completed with an appropriately high score at the time application is made.

E. The Combined Bachelor of Science/Master of Arts in Visual Communication Design

This is a five-year degree program with optional concentrations in 2-D graphic design, 3-D graphic design and illustration. Students who pass the junior portfolio review, complete a minimum of 90 semester hours, demonstrate excellence in formal organization, conceptual problem-solving abilities and technical skills and maintain a minimum 3.00 overall GPA and a 3.25 in the major will be invited or may petition to enter this program. An overall GPA of 3.00 and a major GPA of 3.00 in both the bachelor’s and master’s programs will be required for graduation.

F. The Combined Bachelor of Science/Master of Science in Nursing Program

An accelerated combined degree program for undergraduate KSU nursing students who have completed 60 semester hours and meet the GPA requirements delineated in Combined Baccalaureate/Master’s for Degree Students Early In Their Undergraduate Studies. Qualified students may apply by completing an application for admission to the Master of Science in Nursing (MSN) program of choice and gaining approval from the appropriate graduate faculty program director. A plan of substituting selected master’s core courses for selected undergraduate courses should be carefully worked out with the faculty advisor. Following graduation and passing the state licensing examination (NCLEX-RN), students’ MSN application may be activated for admission into the selected master’s program.

III. A Nontraditional Master’s Degree Student

In rare instances, persons who have not completed a baccalaureate degree will be considered for admission to the appropriate graduate unit due to unusual and exemplary experiential learning. Such applicants may apply for admission by presenting for departmental consideration a curricular plan encompassing undergraduate and graduate coursework to achieve a liberal educational background and professional graduate degree and three letters of recommendation attesting to their potential for graduate study. Upon departmental recommendation and the approval of the dean of the appropriate graduate unit, the applicants will be admitted to undertake graduate work. Upon successful completion of the curricular plan and the particular master’s degree requirements, the students will be awarded the master’s degree.
DIVISION OF CONTINUING STUDIES

The Division of Continuing Studies, in partnership with academic units, sponsors nontraditional, credit and noncredit academic programs. The Division of Continuing Studies encompasses Lifelong Learning and Evening and Weekend programs. Visit our Web site for details at www.kent.edu/contstudies.

LIFELONG LEARNING
The Division of Continuing Studies administers both credit and noncredit programs to meet lifelong learning needs of university, community and professional audiences. All credit workshops are graded satisfactory/unsatisfactory (S/U). A student who never attends even one class session will receive a grade of NF (never attended, F). Students who stop attending prior to the course withdrawal deadline will receive a grade of SF (stopped attending, F). Both NF and SF grades will count as an F (zero quality points) in computing the GPA.

In collaboration with other academic and service units at the university, Continuing Studies offers credit workshops, conferences, noncredit courses and seminars for professionals in business, education, health care and numerous other disciplines.

The Division of Continuing Studies also develops, manages and co-sponsors learning opportunities for the enrichment and professional development of special targeted populations and communities. These include the Summer Youth program and the Saturday Art programs, among other opportunities. To receive additional information or to be placed on a mailing list, contact the Division of Continuing Studies, 204 Michael Schwartz Center, 330-672-3100 or visit our Web site at www.kent.edu/contstudies.

EVENING AND WEEKEND PROGRAMS
Evening and Weekend programs are for people who find the traditional daytime schedule of classes inaccessible. Most evening and weekend students are adults employed full time or part time and have additional family responsibilities. Selected evening and weekend programs may permit students to complete requirements for a variety of undergraduate degrees. Students should contact academic departments about the availability of specific degree programs. If you are an adult student interested in attending evening and weekend programs, please contact the Adult Student Center, 330-672-7933.
